Volume 49 • Subject index

Abdomen, Simple method for necropsy dissection of the abdominal organs after abdominal surgery, **776**
Accreditation, Use of oral pathology services by general histopathologists and their attitudes to training of oral pathologists, **565**
Acquired B phenotype, The absence of a B allele in acquired B blood group phenotype confirmed by a DNA based genotyping method, **180**
Activated partial thromboplastin time, Wide variability in the sensitivity of APTT reagents for monitoring of heparin dosage, **10**
Acute leukaemia, Leukaemia of natural killer cell large granular lymphocyte type with HLA-DR$^-$CD16$^-$CD56$^{bright+}$ phenotype, **1011**
Acute myelogenous leukaemia, Gelatinous degeneration presenting as a preleukaemic syndrome, **512**
Acute myeloid leukaemia
Amphotericin B responsive *Scedosporium apiospermum* infection in a patient with acute myeloid leukaemia, **93**
Chaetomium pneumonia in patient with acute myeloid leukaemia, **184**
Granulocytic sarcoma with expression of CD30, **762**
Phenotypic changes in acute myeloid leukaemia: implications in the detection of minimal residual disease, **15**
Value of colony forming unit-granulocyte macrophage assay in predicting relapse in acute myeloid leukaemia, **450**
Acute pancreatitis, The potential role of *Clostridium perfringens* alpha toxin in the pathogenesis of acute pancreatitis, **500**
Adenocarcinoma
Adenocarcinoma of the anal glands, **1009**
βhCG as a prognostic marker in adenocarcinoma of the prostate, **329:** *correspondence*, **693**
Duodeno-jejunal adenocarcinoma as a first presentation of coeliac disease, **602**
Adenoid cystic carcinoma, Detection of integrated high risk human papillomavirus in adenoid cystic carcinoma of the uterine cervix, **805**
Adenoma with focal carcinoma, Abnormal expression of the human CD44 gene in early colorectal malignancy with special reference to variant exon 9 (9v), **478**
Aeromonas trota, Gastroenteritis caused by *Aeromonas trota* in a child, **173**
Ageing, Increase in the relative level of type V collagen during development and ageing of the placenta, **916**
AIDS
Detection by PCR of *Toxoplasma gondii* in blood in the diagnosis of cerebral toxoplasmosis in patients with AIDS, **89**
Expression of the α5β1 fibronectin receptor on T lymphocytes of patients with HIV-1 infection, **733**
Serum concentrations of nitrite in patients with HIV-1 infection, **574**
Allele loss, Chromosome 11q in sporadic colorectal carcinoma: patterns of allele loss and their significance for tumorigenesis, **386**
Alpha-fetoprotein
Alpha-fetoprotein production by a hepatoid adenocarcinoma of the uterus, **420**
Alpha-fetoprotein production by a malig..ant mixed müllerian tumour of the uterus, **349**
5-Alpha-reductase, Treatment of benign prostatic hyperplasia with 5-α-reductase inhibitor: morphological changes in patients who fail to respond, **324**
Alpha toxin, The potential role of *Clostridium perfringens* alpha toxin in the pathogenesis of acute pancreatitis, **500**
Aluminium, Aluminium and injection site reactions, **844**
Amphetamine derivatives, Pathology of deaths associated with "ecstasy" and "eve" misuse, **149**
Amphotericin, Amphotericin B responsive *Scedosporium apiospermum* infection in a patient with acute myeloid leukaemia, **93**
Ampullary neoplasms, Clinical significance of K-*ras* oncogene activation in ampullary neoplasms, **460**
Anal glands, Adenocarcinoma of the anal glands, **1009**
Androgen, Cellular distribution of androgen receptors in the liver, **418**
Aneurysmal fibrous histiocytoma, Aneurysmal and haemangiopericytoma-like fibrous histiocytoma, **313**
Angiogenin, Increased serum laminin and angiogenin concentrations in patients with peripheral arterial occlusive disease, **508**
Anti-Helicobacter pylori IgG titre, Inverse relation of serum *Helicobacter pylori* antibody titres and extent of intestinal metaplasia, **112**
Anti-neutrophil cytoplasmic antibody, Effect of diagnostic delay on disease severity and outcome in glomerulonephritis caused by anti-neutrophil cytoplasmic antibodies, **942**
Anti-p53, Use of specific ELISA for the detection of antibodies directed against p53 protein in patients with hepatocellular carcinoma, **295**
Antibiotic associated diarrhoea, *Clostridium difficile* infection of the gut: *leader*, **529**
Anticoagulant therapy, Audit of anticoagulant therapy: *leader*, **5**
Antigen retrieval, High temperature antigen retrieval and loss of nuclear morphology: a comparison of microwave and autoclave techniques, **767**
Antigen test, Effect of pH changes in cerebrospinal fluid specimens on bacterial survival and antigen test results, **249**
Apolipoprotein E, Severe xanthomatosis associated with familial apolipoprotein E deficiency, **985**
Apolipoproteins, Serum lipid, lipoprotein and apolipoprotein changes in gestational diabetes mellitus: a cross-sectional and prospective study, **634**
Apoptosis
Correlation of apoptosis with tumour cell differentiation, progression, and HPV infection in cervical carcinoma, **134**
Expression of bcl-2 oncoprotein in pituitary tumours: comparison with c-myc, **795**
APTT, Wide variability in the sensitivity of APTT reagents for monitoring of heparin dosage, **10**
Archival tissue, Detection of herpesvirus-like DNA by nested PCR on archival skin biopsy specimens of various forms of Kaposi sarcoma, **631**
Artefacts, High temperature antigen retrieval and loss of nuclear morphology: a comparison of microwave and autoclave techniques, **767**
Artefactual results of laboratory tests, Pseudopyropoikilocytosis: a striking artefact, **772**
Aspergillosis, Immunoperoxidase staining for identification of *Aspergillus* species in routinely processed tissue sections, **798**
Aspergillus, Chaetomium pneumonia in patient with acute myeloid leukaemia, **184**
Astroviruses, Viral gastroenteritis: small round structured viruses, caliciviruses and astroviruses. Part I. The clinical and diagnostic perspective: *leader*, **874:** Part II. The epidemiological perspective: *leader*, **959**
Atrophic gastritis, Risk of gastric carcinoma in patients with mucosal dysplasia associated with atrophic gastritis: a follow up study, **979**
Audit
Analysis of necropsy request behaviour of clinicians, **29**
Audit of anticoagulant therapy: *leader*, **5**
Audit of continuing medical education for pathologists: strategies and implications: *leader*, **100**
Do histopathology reports of primary cutaneous melanoma contain enough essential information? **202:** *correspondence*, **864**
Factors predicting cases with unexpected clinical findings at necropsy, **909**
Observer variability in histopathological reporting of non-small cell lung carcinoma on bronchial biopsy specimens, **130**
Autoimmune haemolytic anaemia, ACP Broadsheet No 145 - Investigation of patients with autoimmune haemolytic anaemia and provision of blood for transfusion: *correspondence*, **187**

B allele, The absence of a B allele in acquired B blood group phenotype confirmed by a DNA based genotyping method, **180**
B cell lymphoma
B cell lymphoma of the thymus and salivary gland, **595**
Immunoglobulin light chain mRNA detected by in situ hybridisation in diagnostic fine needle aspiration cytology specimens, **749**
BACTEC 9000 series automated system, Isolation of *Mycoplasma hominis* using the BACTEC 9000 series blood culture system, **686**
Bacteria
Effect of pH changes in cerebrospinal fluid specimens on bacterial survival and antigen test results, **249**
Significance of endotoxin in lethal synergy between bacteria associated with sudden infant death syndrome: follow up study, **365**
Bacterial flora, Sleeping position and upper airways bacterial flora: relevance to cot death, **170**
Bacteriology culture, Limitations of paperless on-line reporting of diagnostic bacteriology culture results, **759**
Barrett mucosa, Expression of CD44H and CD44v3 in normal oesophagus, Barrett mucosa and oesophageal carcinoma, **489**
Barrett's oesophagus, *Helicobacter pylori* infection in patients with Barrett's oesophagus: a prospective immunohistochemical study, **176**
Basal cell carcinoma, Proliferation indexes - a comparison between cutaneous basal and squamous cell carcinomas, **549**
Bayesian Belief Network, How to develop and use a Bayesian Belief Network: *leader*, **194:** *correspondence*, **864**
Bcl-2 ,Expression of bcl-2 oncoprotein in pituitary tumours: comparison with c-myc, **795**
Expression of p53 and bcl-2 and response to preoperative chemotherapy and radiotherapy for locally advanced squamous cell carcinoma of the oesophagus, **456**
Immunohistochemical analysis of bcl-2 expression in transitional cell carcinoma of the bladder, **395**

bcr/abl rearrangement, Presence of the bcr/abl rearrangement in a patient with chronic neutrophilic leukaemia, **1013**
BDLF-1, Herpes virus-like sequences are specifically found in Kaposi sarcoma lesions, **306**
Benign prostatic hyperplasia, Treatment of benign prostatic hyperplasia with 5-α-reductase inhibitor: morphological changes in patients who fail to respond, **324**
Beta-human chorionic gonadotrophin, βhCG as a prognostic marker in adenocarcinoma of the prostate, **329**
Bethesda system, Interobserver variation in the reporting of cervical colposcopic biopsy specimens: comparison of grading systems, **833**
Bile ducts, Hepatitis C and bile duct loss, **836**
Biopsy, Electron microscopy and immunocytochemistry in the assessment of renal biopsy specimens: actual and optimal practice, **233:** *correspondence*, **614**
Bismuth chelate, Insulin-like growth factor-I in *Helicobacter pylori* gastritis and response to eradication using bismuth based triple therapy, **676**
Bladder cancer, Immunohistochemical analysis of bcl-2 expression in transitional cell carcinoma of the bladder, **395**
Blood coagulation, Wide variability in the sensitivity of APTT reagents for monitoring of heparin dosage, **10**
Blood culture system, Isolation of *Mycoplasma hominis* using the BACTEC 9000 series blood culture system, **686**
Blood group B, The absence of a B allele in acquired B blood group phenotype confirmed by a DNA based genotyping method, **180**
Blood products, Sensitive and universal method for microbial DNA extraction from blood products, **861**
Blood for transfusion, ACP Broadsheet No 145 - Investigation of patients with autoimmune haemolytic anaemia and provision of blood for transfusion: *correspondence*, **187**
Blood transfusion, Failure to kill *Yersinia enterocolitica* by plasma diluted to the concentration found in red cell units, **434**: *correspondence*, **955**
Bone, Seasonal differences in biochemical parameters of bone remodelling, **284**
Bone marrow ,Increased dimeric IgA producing B cells in the bone marrow in IgA nephropathy determined by in situ hybridisation for J chain mRNA, **38**
Bone marrow embolism, Fatal bone marrow embolism in a patient with sickle cell β⁺ thalassaemia, **774**
Bone marrow transplantation
Chronic hepatitis C in long term survivors of haematological malignancy treated in a single centre, **230:** *correspondence*, **864**
Role of non-transferrin bound iron in iron overload and liver dysfunction in long term survivors of acute leukaemia and bone marrow transplantation, **853**
Bone marrow trephine biopsy
Adequacy of bone marrow trephine biopsy specimens in children, **226**
Central review of bone marrow biopsy specimens from patients with neuroblastoma, **691**

Cancer registries, Benefits and limitations of pathology databases to cancer registries, **947**
Carcinoma of unknown primary, Germ cell tumour as a diagnostic pitfall of metastatic carcinoma, **223**
Carcinosarcoma, Carcinosarcoma arising in a dermoid cyst of the ovary, **519**
Cardiac isoenzymes, Necropsy study of the association between sudden cardiac death, cardiac isoenzymes and contraction band necrosis, **403**: *correspondence*, **1022**
Caseous necrosis, Caseous necrosis in cutaneous leishmaniasis, **517**
Catalase-peroxidase enzyme, Presence of katG gene in resistant *Mycobacterium tuberculosis*, **945**
Cathepsin D, Prognostic value of cathepsin D in breast cancer: comparison of immunohistochemical and immunoradiometric detection methods, **57**
Cause of death
Causes of death in osteogenesis imperfecta, **627**
Confession of ignorance of causation in coroners' necropsies - a common problem? *leader*, **439**
Information on death certificates: cause for concern?, **213**
CD2-8, Differential expression of T cell antigens in normal peripheral blood lymphocytes: a quantitative analysis by flow cytometry, **539**
CD15, Expressioan of CD15 in normal and metaplastic Paneth cells of the digestive tract, **474**

CD30 immunoreactivity, Granulocytic sarcoma with expression of CD30, **762**
CD44
Cellular distribution of CD44 gene transcripts in colorectal carcinomas and in normal colonic mucosa, **482**
Detection of exfoliated carcinoma cells in colonic luminal washings by identification of deranged patterns of expression of the CD44 gene, **300**
OCT embedded sections of pathological specimens as a source of high quality RNA for reverse transcriptase/polymerase chain reaction, **258**
CD44 variant exon 9, Abnormal expression of the human CD44 gene in early colorectal malignancy with special reference to variant exon 9 (9v), **478**
CD44H, Expression of CD44H and CD44v3 in normal oesophagus, Barrett mucosa and oesophageal carcinoma, **489**
CD44v3, Expression of CD44H and CD44v3 in normal oesophagus, Barrett mucosa and oesophageal carcinoma, **489**
CD45RO and CD45RA cells, CD45RO and CD45RA positive cell populations in idiopathic membranous and IgA glomerulopathy, **43**
CD62L, Differential regulation of leucocyte L-selectin (CD62L) expression in normal lymphoid and inflamed extralymphoid tissues, **721**
Cell adhesion, Differential regulation of leucocyte L-selectin (CD62L) expression in normal lymphoid and inflamed extralymphoid tissues, **721**
Cell culture, Solid tissue culture for cytogenetic analysis: a collaborative survey for the Association of Clinical Cytogeneticists, **638**
Cell cycle analysis, Tumour heterogeneity of DNA cell cycle variables in breast cancer measured by flow cytometry, **931**
Cell proliferation, Proliferation in the normal cervix and in preinvasive cervical lesions, **667**
Cerebral toxoplasmosis, Detection by PCR of *Toxoplasma gondii* in blood in the diagnosis of cerebral toxoplasmosis in patients with AIDS, **89**
Cerebrospinal fluid
Cerebrospinal fluid activity of tissue plasminogen activator in patients with neurological diseases, **577**
Effect of pH changes in cerebrospinal fluid specimens on bacterial survival and antigen test results, **249**
Evaluation of formulae for CSF IgG synthesis using data obtained from two methods: importance of receiver operator characteristic curve analysis, **24**
Malignant meningitis: a rational approach to cerebrospinal fluid cytology, **497**
Cervical carcinoma
Neuroendocrine differentiation in cervical carcinoma, **139**
p53 expression in carcinoma of the cervix, **971**
Cervical cytology, HPV testing in patients with low grade cervical cytological abnormalities: a follow up study, **493**
Cervical intraepithelial neoplasia
Correlation of apoptosis with tumour cell differentiation, progression, and HPV infection in cervical carcinoma, **134**
Interobserver variation in the reporting of cervical colposcopic biopsy specimens: comparison of grading systems, **833**
Oncogenic human papillomaviruses and ploidy in cervical lesions, **892**
Proliferation in the normal cervix and in preinvasive cervical lesions: *editorial*, **957**
Proliferation in the normal cervix and in preinvasive cervical lesions, **667**
Tenascin in human papillomavirus associated lesions of the uterine cervix, **521**
Cervical screening, Rapid review (partial rescreening) of cervical cytology. Four years experience and quality assurance implications, **587**
Cervix
Current guidelines for sampling the cervix in hysterectomy specimens are appropriate: *correspondence*, **694**
Detection of integrated high risk human papillomavirus in adenoid cystic carcinoma of the uterine cervix, **805**
Proliferation in the normal cervix and in preinvasive cervical lesions, **667**
Chaetomium globosum, *Chaetomium* pneumonia in patient with acute myeloid leukaemia, **184**
Chemiluminescence, Monocyte activation in patients with non-seminomatous germ cell tumour of the testis before and after tumour eradication, **381**
Children
Adequacy of bone marrow trephine biopsy specimens in children, **226**
Central review of bone marrow biopsy specimens from patients with neuroblastoma, **691**
Gastroenteritis caused by *Aeromonas trota* in a child, **173**
Prevalence of human herpesvirus 6 in lung tissue from children with pneumonitis, **802**
Chlamydia pneumoniae, Detection and widespread distribution of *Chlamydia pneumoniae* in the vascular system and its possible implications, **102**
Chlamydia trachomatis
Antigen capture ELISA for the heat shock protein (hsp60) of *Chlamydia trachomatis*, **642**
Comparison of the ligase chain rection with cell culture for the diagnosis of *Chlamydia trachomatis* infection in women, **116**
Evaluation of the sensitivity and specificity of a ligase chain reaction test kit for the detection of *Chlamydia trachomatis*, **515**
One-day detection of PCR amplified *Chlamydia trachomatis* DNA in clinical samples: ELISA versus Southern blot hybridisation, **581**
Cholecystitis, Myelofibrosis presenting as chronic cholecystitis, **428**
Cholelithiasis, Gallstones spilt at laparoscopic cholecystectomy: a new cause of intraperitoneal granulomas, **84**
Cholesterol, Lipid screening in an elderly population: difficulty in interpretation and in detection of occult metabolic disease, **278**
Chromogranin A, Neuroendocrine differentiation in cervical carcinoma, **139**
Chromosome 11q, Chromosome 11q in sporadic colorectal carcinoma: patterns of allele loss and their significance for tumorigenesis, **386**
Chronic cholestasis, Biliary expression of heat shock protein: a non-specific feature of chronic cholestatic liver diseases, **53**
Chronic lymphocytic leukaemia cells, Effects of interleukins on the proliferation and survival of chronic lymphocytic leukaemia cells: *correspondence*, **437**
Chronic neutrophilic leukaemia
Granulocyte-colony stimulating factor concentrations in a patient with plasma cell dyscrasia and clinical features of chronic neutrophilic leukaemia, **858**
Presence of the bcr/abl rearrangement in a patient with chronic neutrophilic leukaemia, **1013**
CK-BB and CK-MB, A case against the specificity of "cardiac" troponin-T, **766**
Clinical activity, Review of clinical activity by microbiologists, **429: *correspondence*, 780**

Fibronectin receptor, Expression of the α5β1 fibronectin receptor on T lymphocytes of patients with HIV-1 infection, **733**
Fibrosis, Fibrosis and other histological features in chronic hepatitis C virus infection: a statistical model, **465**
Finasteride, Treatment of benign prostatic hyperplasia with 5-α-reductase inhibitor: morphological changes in patients who fail to respond, **324**
Fine needle aspiration
Immediate assessment of fine needle aspiration cytology of lung, **839**
Immunoglobulin light chain mRNA detected by in situ hybridisation in diagnostic fine needle aspiration cytology specimens, **749**
Iododeoxyuridine labelling of S-phase fraction in fine needle aspirates from breast carcinomas, **607**
Sensitive and reliable PCR and sequencing used to detect p53 point mutations in fine needle aspirates of the breast, **570**
Flow cytometry
Differential expression of T cell antigens in normal peripheral blood lymphocytes: a quantitative analysis by flow cytometry, **539**
Flow cytometry and Kleihauer tests: *correspondence*, **354**
Use of buffered formaldehyde in the enzymatic digestion of inflamed mucosa, **177**
Use of flow cytometry in the analysis of stage III squamous cell carcinoma of the oesophagus and its association with MIB-1, **975**
Foreign body type granuloma, Gallstones spilt at laparoscopic cholecystectomy: a new cause of intraperitoneal granulomas, **84**
Formalin fixed tissue, Quantification of HIV DNA in the brain by PCR: differences between fresh frozen and formalin fixed tissue, **425**
Frozen tissue, Quantification of HIV DNA in the brain by PCR: differences between fresh frozen and formalin fixed tissue, **425**
Funeral director, Funeral directors, mortuaries and necropsies: implications for necropsy consent rates and the prevention of infection, **217**
Fungal infections, Mycological techniques: *leader*, **95**

Galactomannan, Immunoperoxidase staining for identification of *Aspergillus* species in routinely processed tissue sections, **798**
Gall bladder, Myelofibrosis presenting as chronic cholecystitis, **428**
Gallstones, Gallstones spilt at laparoscopic cholecystectomy: a new cause of intraperitoneal granulomas, **84**
Ganglioside antibodies, Anti-GM1 antibodies in polyneuropathies of unknown origin, **422**
Gastric atrophy, Inverse relation of serum *Helicobacter pylori* antibody titres and extent of intestinal metaplasia, **112**
Gastric biopsy, Detection of *Helicobacter pylori* in gastric biopsy and resection specimens, **107**
Gastric carcinoma, Risk of gastric carcinoma in patients with mucosal dysplasia associated with atrophic gastritis: a follow up study, **979**
Gastric ulcer, Serum CagA antibodies in asymptomatic subjects and patients with peptic ulcer: lack of correlation of IgG antibody in patients with peptic ulcer or asymptomatic *Helicobacter pylori* gastritis, **829**
Gastritis
Histology of chronic gastritis with and without duodenitis in patients with *Helicobacter pylori* infection, **377**
Increased gastric epithelial cell proliferation in *Helicobacter pylori* associated follicular gastritis, **68**
Prevalence of lymphoid folicles in *Helicobacter pylori* associated gastritis: *correspondence*, **527**
Gastroduodenal disease, Association between *Helicobacter pylori* infection and serum pepsinogen concentrations in gastroduodenal disease, **1005**
Gastroenteritis, Viral gastroenteritis: small round structured viruses, caliciviruses and astroviruses. Part I. The clinical and diagnostic perspective: *leader*, **874**: Part II. The epidemiological perspective: *leader*, **959**
Gelatinous degeneration, Gelatinous degeneration presenting as a preleukaemic syndrome, **512**
General histopathology, Use of oral pathology services by general histopathologists and their attitudes to training of oral pathologists, **565**
Genetics, The genetics of osteoarthritis: *editorial*, **617**
Genital infection in women, Comparison of the ligase chain rection with cell culture for the diagnosis of *Chlamydia trachomatis* infection in women, **116**
Germ cell tumour, Germ cell tumour as a diagnostic pitfall of metastatic carcinoma, **223**
Gestational diabetes, Serum lipid, lipoprotein and apolipoprotein changes in gestational diabetes mellitus: a cross-sectional and prospective study, **634**
Giant cells, Giant cell hepatitis associated with systemic lupus erythematosus, **183**
Glial cyst, Sudden death due to a glial cyst of the pineal gland, **267**
Glomerulonephritis
Effect of diagnostic delay on disease severity and outcome in glomerulonephritis caused by anti-neutrophil cytoplasmic antibodies, **942**
Necropsy findings in lysinuric protein intolerance, **345**
Gluten sensitive enteropathy, Serological diagnosis of gluten sensitive enteropathy, **704**
Gram positive pathogens, The new threats of Gram positive pathogens: re-emergence of things past: *leader*, **444**
Granulocyte-colony stimulating factor, Granulocyte-colony stimulating factor concentrations in a patient with plasma cell dyscrasia and clinical features of chronic neutrophilic leukaemia, **858**
Granulocytic sarcoma, Granulocytic sarcoma with expression of CD30, **762**
Granuloma, Granulomatous disease in common variable immunodeficiency: effect on immunoglobulin replacement therapy and response to steroids and splenectomy, **431**
Granulomatous inflammation, Tumour related cutaneous elastophagocytosis, **81**
Granulomatous peritonitis, Gallstones spilt at laparoscopic cholecystectomy: a new cause of intraperitoneal granulomas, **84**
Guidelines, Practice guidelines for necropsy: time for action: *editorial*, **867**
Gut, *Clostridium difficile* infection of the gut: *leader*, **529**
Guthrie card, Blood ferritin concentrations in newborn infants and the sudden infant death syndrome, **168**

H^+,K^+-ATPase, Parietal cells in the duodenal bulb and their relation to *Helicobacter pylori* infection, **309**
Haemangiopericytoma-like fibrous histiocytoma, Aneurysmal and haemangiopericytoma-like fibrous histiocytoma, **313**
Haematemesis, Hyperfibrinolysis in hepatosplenic schistosomiasis, **990**
Haemiglobincyanide
Recommendations for reference method for haemoglobinometry in human blood (ICSH standard 1995) and specifications for international haemiglobincyanide standard (4th edition): *leader*, **271**
Stability of haemiglobincyanide standards: *leader*, **275**
Haemochromatosis, Comparison of histological and biochemical hepatic iron indexes in the diagnosis of genetic haemochromatosis, **159**
Haemoglobinometry, Recommendations for reference method for haemoglobinometry in human blood (ICSH standard 1995) and specifications for international haemiglobincyanide standard (4th edition): *leader*, **271**
Haemorrhage, Intracerebral haemorrhage: *leader*, **360**
HbH inclusion test, Comparison of the HbH inclusion test and a PCR test in routine scanning for alpha thalassaemia in Hong Kong, **411**
Heat shock protein
Antigen capture ELISA for the heat shock protein (hsp60) of *Chlamydia trachomatis*, **642**
Biliary expression of heat shock protein: a non-specific feature of chronic cholestatic liver diseases, **53**
Heat tolerance, Heat tolerance of vancomycin resistant *Enterococcus faecium*, **687**
Helicobacter pylori
Accuracy of serology for the diagnosis of *Helicobacter pylori* infection - a comparison of eight kits, **373**
Association between *Helicobacter pylori* infection and serum pepsinogen concentrations in gastroduodenal disease, **1005**
Detection of *Helicobacter pylori* in gastric biopsy and resection specimens, **107**
Determination of optimal liquid medium for enzyme expression by *Helicobacter pylori*, **818**
Helicobacter pylori antibody titres in serum, plasma and successively thawed specimens: implications for epidemiological and clinical studies, **1017**
Helicobacter pylori infection in patients with Barrett's oesophagus: a prospective immunohistochemical study, **176**

Histology of chronic gastritis with and without duodenitis in patients with *Helicobacter pylori* infection, **377**
Increased gastric epithelial cell proliferation in *Helicobacter pylori* associated follicular gastritis, **68**
Insulin-like growth factor-I in *Helicobacter pylori* gastritis and response to eradication using bismuth based triple therapy, **676**
Inverse correlation between *Helicobacter pylori* infection and inflammatory bowel disease, **65**
Inverse relation of serum *Helicobacter pylori* antibody titres and extent of intestinal metaplasia, **112**
Parietal cells in the duodenal bulb and their relation to *Helicobacter pylori* infection, **309**
Prevalence of lymphoid folicles in *Helicobacter pylori* associated gastritis: *correspondence*, **527**
Serum CagA antibodies in asymptomatic subjects and patients with peptic ulcer: lack of correlation of IgG antibody in patients with peptic ulcer or asymptomatic *Helicobacter pylori* gastritis, **829**

Heparin, Wide variability in the sensitivity of APTT reagents for monitoring of heparin dosage, **10**

Hepatitis
Giant cell hepatitis associated with systemic lupus erythematosus, **183**
Hepatitis virus infection and liver disease in injecting drug users who died suddenly, **552**

Hepatitis C
Assessment of commercial enzyme immunoassay for hepatitis C virus serotyping, **994**
Chronic hepatitis C in long term survivors of haematological malignancy treated in a single centre, **230:** *correspondence*, **864**
Fibrosis and other histological features in chronic hepatitis C virus infection: a statistical model, **465**
Hepatitis C and bile duct loss, **836**
Hepatitis C virus seroconversion by a third generation ELISA screening test in blood donors, **254**
Histological features predictive of liver fibrosis in chronic hepatitis C infection, **998**
Rapid and highly specific technique to detect hepatitis C RNA in frozen sections of liver, **369**

Hepatocellular carcinoma
Expression of P-glycoprotein in hepatocellular carcinoma: a potential marker of prognosis, **470**
Use of specific ELISA for the detection of antibodies directed against p53 protein in patients with hepatocellular carcinoma, **295**

Hepatoid adenocarcinoma, Alpha-fetoprotein production by a hepatoid adenocarcinoma of the uterus, **420**

Hepatosplenic schistosomiasis, Hyperfibrinolysis in hepatosplenic schistosomiasis, **990**

Herpes simplex virus, Distribution of varicella zoster virus and herpes simplex virus in disseminated fatal infections, **243**

Herpes virus, Herpes virus-like sequences are specifically found in Kaposi sarcoma lesions, **306**

Herpesvirus 6, Prevalence of human herpesvirus 6 in lung tissue from children with pneumonitis, **802**

Herpesvirus-like DNA, Detection of herpesvirus-like DNA by nested PCR on archival skin biopsy specimens of various forms of Kaposi sarcoma, **631**

HHF-35, Malignant melanoma showing smooth muscle differentiation, **950**

High density lipoprotein, The pathology of cornea in Tangier disease (familial high density lipoprotein deficiency), **407**

Histological diagnosis, Information on death certificates: cause for concern? **213**

Histopathology, The hidden increase in histopathologists' workload, **689**

HIV
Mycobacterium kansasii: its presentation, treatment and outcome in HIV infected patients, **821**
Quantification of HIV DNA in the brain by PCR: differences between fresh frozen and formalin fixed tissue, **425**

HIV-1 infection
Expression of the α5β1 fibronectin receptor on T lymphocytes of patients with HIV-1 infection, **733**
Serum concentrations of nitrite in patients with HIV-1 infection, **574**

HLA antigen expression, HLA antigen expression in enteropathy associated T cell lymphoma, **545**

Hodgkin's disease
Hodgkin's disease and common variable immunodeficiency: *correspondence*, **1021**
Hodgkin's disease following mycosis fungoides: phenotypic and molecular evidence for different tumour cell clones, **504**

Holo-transcobalamin II, Limited value of serum holotranscobalamin II measurements in the differential diagnosis of macrocytosis, **755**

HPV-DNA, Tenascin in human papillomavirus associated lesions of the uterine cervix, **521**

HTLV, HTLV Tax gene expression in patients with lymphoproliferative disorders, **938**

Human chorionic gonadotrophin, βhCG as a prognostic marker in adenocarcinoma of the prostate, **329**: *correspondence*, **693**

Human herpesvirus 6, Prevalence of human herpesvirus 6 in lung tissue from children with pneumonitis, **802**

Human papillomavirus
Correlation of apoptosis with tumour cell differentiation, progression, and HPV infection in cervical carcinoma, **134**
Detection of integrated high risk human papillomavirus in adenoid cystic carcinoma of the uterine cervix, **805**
HPV testing in patients with low grade cervical cytological abnormalities: a follow up study, **493**
Human papillomavirus DNA in squamous cell carcinoma of the lung, **810**
Oncogenic human papillomaviruses and ploidy in cervical lesions, **892**
Tenascin in human papillomavirus associated lesions of the uterine cervix, **521**

Human T-cell leukaemia virus type I, HTLV Tax gene expression in patients with lymphoproliferative disorders, **938**

Hypercalciuria, Inappropriate phosphate excretion in idiopathic hypercalciuria: the key to a common cause and future treatment?, **881**

Hyperfibrinolysis
Hyperfibrinolysis: *editorial*, **958**
Hyperfibrinolysis in hepatosplenic schistosomiasis, **990**

Hyperlipidaemia
Lipoproteins in pregnant women before and during delivery: influence on neonatal haemorheology, **120**
Prevalence of microalbuminuria, lipoprotein (a) and coronary artery disease in the lipid clinic, **19**

Hyperlipoproteinaemia, Severe xanthomatosis associated with familial apolipoprotein E deficiency, **985**

Hypomagnesaemic tetany, Hypomagnesaemic tetany, **343**

Hypophosphatasia, Hypophosphatasia, **682**

Hysterectomy specimens, Current guidelines for sampling the cervix in hysterectomy specimens are appropriate: *correspondence*, **694**

ICAM-1
Glomerular vascular cell adhesion molecule-1 expression in renal vasculitis, **238**
Lymphocyte infiltration in oesophageal carcinoma: lack of correlation with MHC antigens, ICAM-1, and tumour stage and grade, **264**

Idiopathic membranous glomerulopathy, CD45RO and CD45RA positive cell populations in idiopathic membranous and IgA glomerulopathy, **43**

IgA glomerulopathy, CD45RO and CD45RA positive cell populations in idiopathic membranous and IgA glomerulopathy, **43**

IgA nephropathy, Increased dimeric IgA producing B cells in the bone marrow in IgA nephropathy determined by in situ hybridisation for J chain mRNA, **38**

IgM kappa paraproteinaemia, POEMS syndrome and Waldenström's macroglobulinaemia, **181**

Image analysis, MIB-1 proliferative activity in invasive breast cancer measured by image analysis, **926**

Immediate assessment, Immediate assessment of fine needle aspiration cytology of lung, **839**

Immunisation policies, Immunisation policies - successes, failures and the future: *leader*, **620**

Immunocytochemistry
Electron microscopy and immunocytochemistry in the assessment of renal biopsy specimens: actual and optimal practice, **233**: *correspondence*, **614**
High temperature antigen retrieval and loss of nuclear morphology: a comparison of microwave and autoclave techniques, **767**
Immunoglobulin light chain mRNA detected by in situ hybridisation in diagnostic fine needle aspiration cytology specimens, **749**

Immunoglobulin heavy chain gene, Assessment of IgH PCR strategies in multiple myeloma, **672**

Immunohistochemistry
Abnormal expression of the human CD44 gene in early colorectal malignancy with special reference to variant exon 9 (9v), **478**
Cellular distribution of CD44 gene transcripts in colorectal carcinomas and in normal colonic mucosa, **482**
Chaetomium pneumonia in patient with acute myeloid leukaemia, **184**
Detection of *Helicobacter pylori* in gastric biopsy and resection specimens, **107**
Distribution of varicella zoster virus and herpes simplex virus in disseminated fatal infections, **243**
Expressioan of CD15 in normal and metaplastic Paneth cells of the digestive tract, **474**
Expression of p53 and bcl-2 and response to preoperative chemotherapy and radiotherapy for locally advanced squamous cell carcinoma of the oesophagus, **456**
Helicobacter pylori infection in patients with Barrett's oesophagus: a prospective immunohistochemical study, **176**
Hodgkin's disease following mycosis fungoides: phenotypic and molecular evidence for different tumour cell clones, **504**
Immunohistochemical evaluation of keratin 20 expression in intestinal metaplasia types I to III, **791**
Inflammatory pseudotumour of the mouth and maxilla, **164**
Myxoid renal cell carcinoma: histological immunocytochemical and ultrastructural study, **1015**

Pancreatoblastoma: a histochemical and immunohistochemical analysis, **952**

Prognostic value of cathepsin D in breast cancer: comparison of immunohistochemical and immunoradiometric detection methods, **57**

Proliferating cell nuclear antigen expression in papillary thyroid carcinoma, **657**

Immunohistology, Which proliferation markers for routine immunohistology? *correspondence*, **270**

Immunopathololgy, Immunocytochemistry of mucosal changes in patients infected with the intestinal nematode *Strongyloides stercoralis*, **717**

Immunoperoxidase, Immunoperoxidase staining for identification of *Aspergillus* species in routinely processed tissue sections, **798**

Immunophenotype

Leukaemia of natural killer cell large granular lymphocyte type with HLA-DR$^-$CD16$^-$CD56$^{bright+}$ phenotype, **1011**

VS38 immunostaining in melanocytic lesions, **205**: *correspondence*, **694**

Immunosuppression, Distribution of varicella zoster virus and herpes simplex virus in disseminated fatal infections, **243**

In situ hybridisation

Cellular distribution of CD44 gene transcripts in colorectal carcinomas and in normal colonic mucosa, **482**

Distribution of varicella zoster virus and herpes simplex virus in disseminated fatal infections, **243**

HPV testing in patients with low grade cervical cytological abnormalities: a follow up study, **493**

Human papillomavirus DNA in squamous cell carcinoma of the lung, **810**

Immunoglobulin light chain mRNA detected by in situ hybridisation in diagnostic fine needle aspiration cytology specimens, **749**

Simple detection of the 5S ribosomal RNA of *Pneumocystis carinii* using in situ hybridisation, **712**

Inappropriate phosphaturia, Inappropriate phosphate excretion in idiopathic hypercalciuria: the key to a common cause and future treatment?, **881**

Inflammation, Use of buffered formaldehyde in the enzymatic digestion of inflamed mucosa, **177**

Inflammatory bowel disease, Inverse correlation between *Helicobacter pylori* infection and inflammatory bowel disease, **65**

Inflammatory myopathy, Search for picornaviruses at onset of inflammatory myopathy, **592**

Inflammatory pseudotumour, Inflammatory pseudotumour of the mouth and maxilla, **164**

Inheritable disorders, Confidentiality, death and the doctor: *leader*, **1**: *correspondence*, **694**

Injection site, Aluminium and injection site reactions, **844**

Insulin-like growth factor-I, Insulin-like growth factor-I in *Helicobacter pylori* gastritis and response to eradication using bismuth based triple therapy, **676**

Intact renal function, A case against the specificity of "cardiac" troponin-T, **766**

Intercellular adhesion molecule-1

Glomerular vascular cell adhesion molecule-1 expression in renal vasculitis, **238**

Lymphocyte infiltration in oesophageal carcinoma: lack of correlation with MHC antigens, ICAM-1, and tumour stage and grade, **264**

Interleukins, Effects of interleukins on the proliferation and survival of chronic lymphocytic leukaemia cells: *correspondence*, **437**

Interobserver variation, Interobserver variation in the reporting of cervical colposcopic biopsy specimens: comparison of grading systems, **833**

Intestinal metaplasia, Inverse relation of serum *Helicobacter pylori* antibody titres and extent of intestinal metaplasia, **112**

Intestinal metaplasia types I, II, III, Immunohistochemical evaluation of keratin 20 expression in intestinal metaplasia types I to III, **791**

Intimal sarcoma, Intimal sarcoma of the right brachiocephalic vein presenting as the superior vena caval syndrome, **347**

Intra-tumour heterogeneity, Tumour heterogeneity of DNA cell cycle variables in breast cancer measured by flow cytometry, **931**

Intracerebral haemorrhage, Intracerebral haemorrhage: *leader*, **360**

Intralipid, Splenic macrophages in preterm infants: a necropsy study, **391**

Intramural metastasis, Measurement of extent of spread of oesophageal squamous carcinoma by serial sectioning, **124**

Intraperitoneal granulomas, Gallstones spilt at laparoscopic cholecystectomy: a new cause of intraperitoneal granulomas, **84**

Intrathecal IgG synthesis, Evaluation of formulae for CSF IgG synthesis using data obtained from two methods: importance of receiver operator characteristic curve analysis, **24**

Intravenous drug users, Hepatitis virus infection and liver disease in injecting drug users who died suddenly, **552**

Intravenous immunoglobulin, Granulomatous disease in common variable immunodeficiency: effect on immunoglobulin replacement therapy and response to steroids and splenectomy, **431**

Invasive breast carcinoma, Proliferative activity in invasive breast carcinoma: *editorial*, **868**

Iododeoxyuridine labelling, Iododeoxyuridine labelling of S-phase fraction in fine needle aspirates from breast carcinomas, **607**

Iron deficiency, Frequency of coincident iron deficiency and β-thalassaemia trait: *correspondence*, **1021**

Isoniazid, Presence of katG gene in resistant *Mycobacterium tuberculosis*, **945**

J chain, Increased dimeric IgA producing B cells in the bone marrow in IgA nephropathy determined by in situ hybridisation for J chain mRNA, **38**

K-ras, Clinical significance of K-*ras* oncogene activation in ampullary neoplasms, **460**

Kaposi sarcoma

Detection of herpesvirus-like DNA by nested PCR on archival skin biopsy specimens of various forms of Kaposi sarcoma, **631**

Herpes virus-like sequences are specifically found in Kaposi sarcoma lesions, **306**

Thymidine phosphorylase expression in Kaposi sarcoma, **400**

Kappa statistics, Kappa statistics as indicators of quality assurance in histopathology and cytopathology, **597**

katG gene, Presence of katG gene in resistant *Mycobacterium tuberculosis*, **945**

Keratin 20, Immunohistochemical evaluation of keratin 20 expression in intestinal metaplasia types I to III, **791**

Ki-1 lymphoma, Small cell variant of Ki-1 lymphoma associated with myelofibrosis and a novel constitutional chromosomal translocation t(3;4)(q13;q12), **259**

Ki-67

Correlation of apoptosis with tumour cell differentiation, progression, and HPV infection in cervical carcinoma, **134**

Ki-67 expression in early prostate cancer and associated pathological lesions, **741**

Kidney

Electron microscopy and immunocytochemistry in the assessment of renal biopsy specimens: actual and optimal practice, **233**: *correspondence*, **614**

Extracellular matrix and the kidney: *leader*, **355**

Kleihauer tests, Flow cytometry and Kleihauer tests: *correspondence*, **354**

L-selectin, Differential regulation of leucocyte L-selectin (CD62L) expression in normal lymphoid and inflamed extralymphoid tissues, **721**

Laboratory diagnosis, Laboratory diagnosis of malaria: *leader*, **533**

Laboratory results, Limitations of paperless on-line reporting of diagnostic bacteriology culture results, **759**

Lacrimal apparatus, Ocular spherulocystosis, **857**

Laminin, Increased serum laminin and angiogenin concentrations in patients with peripheral arterial occlusive disease, **508**

Langerhans cell histiocytosis, Langerhans cell histiocytosis forming an asymptomatic solitary nodule in the spleen, **262**

Laparoscopic cholecytstectomy, Gallstones spilt at laparoscopic cholecystectomy: a new cause of intraperitoneal granulomas, **84**

Large granular lymphocytosis, An unusual association of Felty syndrome and TCRγδ lymphocytosis, **351**

Legionella, Serological cross reaction between legionella and campylobacter in the rapid microagglutination test, **584**

Leishmaniasis, Caseous necrosis in cutaneous leishmaniasis, **517**

Lethal synergy, Significance of endotoxin in lethal synergy between bacteria associated with sudden infant death syndrome: follow up study, **365**

Leucocyte L-selectin, Differential regulation of leucocyte L-selectin (CD62L) expression in normal lymphoid and inflamed extralymphoid tissues, **721**

Leukaemia

Amphotericin B responsive *Scedosporium apiospermum* infection in a patient with acute myeloid leukaemia, **93**

Chaetomium pneumonia in patient with acute myeloid leukaemia, **184**

Chronic hepatitis C in long term survivors of haematological malignancy treated in a single centre, **230**: *correspondence*, **864**

Expression of TIA-1 and TIA-2 in T cell malignancies and T cell lymphocytosis, **154**

Gelatinous degeneration presenting as a preleukaemic syndrome, **512**

Granulocyte-colony stimulating factor concentrations in a patient with plasma cell dyscrasia and clinical features of chronic neutrophilic leukaemia, **858**

Granulocytic sarcoma with expression of CD30, **762**

Leukaemia of natural killer cell large granular lymphocyte type with HLA-DR$^-$CD16$^-$CD56$^{bright+}$ phenotype, **1011**

Method for quantifying expression of functionally active topoisomerase II in patients with leukaemia, **848**

Phenotypic changes in acute myeloid leukaemia: implications in the detection of minimal residual disease, **15**

Presence of the bcr/abl rearrangement in a patient with chronic neutrophilic leukaemia, **1013**

Role of non-transferrin bound iron in iron overload and liver dysfunction in long term survivors of acute leukaemia and bone marrow transplantation, **853**

Value of colony forming unit-granulocyte macrophage assay in predicting relapse in acute myeloid leukaemia, **450**
Leukaemia cells, Effects of interleukins on the proliferation and survival of chronic lymphocytic leukaemia cells: *correspondence*, **437**
Ligase chain reaction
Comparison of the ligase chain rection with cell culture for the diagnosis of *Chlamydia trachomatis* infection in women, **116**
Evaluation of the sensitivity and specificity of a ligase chain reaction test kit for the detection of *Chlamydia trachomatis*, **515**
Lip lesions, p53 protein expression in malignant, pre-malignant and non-malignant lesions of the lip, **648**
Lipids
Lipid screening in an elderly population: difficulty in interpretation and in detection of occult metabolic disease, **278**
Serum lipid, lipoprotein and apolipoprotein changes in gestational diabetes mellitus: a cross-sectional and prospective study, **634**
Lipoprotein (a), Prevalence of microalbuminuria, lipoprotein (a) and coronary artery disease in the lipid clinic, **19**
Lipoproteins
Lipoproteins in pregnant women before and during delivery: influence on neonatal haemorheology, **120**
Serum lipid, lipoprotein and apolipoprotein changes in gestational diabetes mellitus: a cross-sectional and prospective study, **634**
Liposarcoma, Focal rhabdomyosarcomatous differentiation in primary liposarcoma, **770**
Liver
Cellular distribution of androgen receptors in the liver, **418**
Expression of P-glycoprotein in hepatocellular carcinoma: a potential marker of prognosis, **470**
Rapid and highly specific technique to detect hepatitis C RNA in frozen sections of liver, **369**
Liver biopsy, Comparison of histological and biochemical hepatic iron indexes in the diagnosis of genetic haemochromatosis, **159**
Liver dysfunction, Role of non-transferrin bound iron in iron overload and liver dysfunction in long term survivors of acute leukaemia and bone marrow transplantation, **853**
Liver fibrogenesis, Histological features predictive of liver fibrosis in chronic hepatitis C infection, **998**
Liver iron, Blood ferritin concentrations in newborn infants and the sudden infant death syndrome, **168**
Liver transplantation, A rapid and highly specific technique to detect hepatitis C RNA in frozen sections of liver, **369**
Low grade B cell lymphoma, B cell lymphoma of the thymus and salivary gland, **595**
Lucigenin, Monocyte activation in patients with non-seminomatous germ cell tumour of the testis before and after tumour eradication, **381**
Lung cancer (carcinoma)
Human papillomavirus DNA in squamous cell carcinoma of the lung, **810**
Observer variability in histopathological reporting of non-small cell lung carcinoma on bronchial biopsy specimens, **130**
Lung cancer volume, A comparison of pathological methods of measuring lung cancer volume, **654**
Lung cytology, Immediate assessment of fine needle aspiration cytology of lung, **839**
Lymphocyte infiltration, Lymphocyte infiltration in oesophageal carcinoma: lack of correlation with MHC antigens, ICAM-1, and tumour stage and grade, **264**
Lymphocytic leukaemia cells, Effects of interleukins on the proliferation and survival of chronic lymphocytic leukaemia cells: *correspondence*, **437**
Lymphoid follicles, Prevalence of lymphoid folicles in *Helicobacter pylori* associated gastritis: *correspondence*, **527**
Lymphoma
Association between sarcoidosis and lymphoma revisited, **208**
B cell lymphoma of the thymus and salivary gland, **595**
Collision tumour of the oesophagus: a challenge for histological diagnosis, **524**
Diagnosis of lymphoma in paraffin wax sections by nested PCR and immunohistochemistry, **333**
Expression of Epstein-Barr virus encoded nuclear antigen 1 in benign and malignant tissues harbouring EBV, **897**
Malignant lymphoma in congenital dyserythropoietic anaemia type III, **599**
Lymphoproliferative disorders
EBNA expression in Reed-Sternberg-like cells in post-transplant lymphoproliferative disorders: *correspondence*, **270**
HTLV Tax gene expression in patients with lymphoproliferative disorders, **938**
Lysinuric protein intolerance, Necropsy findings in lysinuric protein intolerance, **345**
Lysozyme, Expressioan of CD15 in normal and metaplastic Paneth cells of the digestive tract, **474**

Macrocytosis, Limited value of serum holo-transcobalamin II measurements in the differential diagnosis of macrocytosis, **755**
Malaria, Laboratory diagnosis of malaria: *leader*, **533**
Male breast, Sclerosing lymphocytic lobulitis in the male breast, **609**
Malignant meningitis, Malignant meningitis: a rational approach to cerebrospinal fluid cytology, **497**
Malignant mesenchymoma, Focal rhabdomyosarcomatous differentiation in primary liposarcoma, **770**
Malignant mixed mesodermal tumour, Alpha-fetoprotein production by a malignant mixed müllerian tumour of the uterus, **349**
MALT, B cell lymphoma of the thymus and salivary gland, **595**
MDR, Expression of P-glycoprotein in hepatocellular carcinoma: a potential marker of prognosis, **470**
Medical microbiology service, Microbiology user satisfaction survey: *correspondence*, **615**
Melanoma
Cell growth and p53 expression in primary acquired melanosis and conjunctival melanoma, **338**
Do histopathology reports of primary cutaneous melanoma contain enough essential information? **202**: *correspondence*, **864**
Malignant melanoma showing smooth muscle differentiation, **950**
VS38 immunostaining in melanocytic lesions, **205**: *correspondence*, **694**
Meningitis
Effect of pH changes in cerebrospinal fluid specimens on bacterial survival and antigen test results, **249**
Malignant meningitis: a rational approach to cerebrospinal fluid cytology, **497**
Mesenchymoma, Focal rhabdomyosarcomatous differentiation in primary liposarcoma, **770**
Metabolic disease, Lipid screening in an elderly population: difficulty in interpretation and in detection of occult metabolic disease, **278**
Metastatic carcinoma, Germ cell tumour as a diagnostic pitfall of metastatic carcinoma, **223**
MHC, Lymphocyte infiltration in oesophageal carcinoma: lack of correlation with MHC antigens, ICAM-1, and tumour stage and grade, **264**
MIB-1
Increased gastric epithelial cell proliferation in *Helicobacter pylori* associated follicular gastritis, **68**
MIB-1 proliferative activity in invasive breast cancer measured by image analysis, **926**
MIB-1 labelling index, Use of flow cytometry in the analysis of stage III squamous cell carcinoma of the oesophagus and its association with MIB-1, **975**
Microalbuminuria, Prevalence of microalbuminuria, lipoprotein (a) and coronary artery disease in the lipid clinic, **19**
Microbes, Sensitive and universal method for microbial DNA extraction from blood products, **861**
Microbiological examination, Does storage of sputum specimens adversely affect culture results?, **684**
Microbiologist, Review of clinical activity by microbiologists, **429**: *correspondence*, **780**

Oral pathology, Use of oral pathology services by general histopathologists and their attitudes to training of oral pathologists, **565**
Order of draw, The order of draw of blood specimens into additive containing tubes does not affect potassium and calcium measurements, **1019**
ORF26, Herpes virus-like sequences are specifically found in Kaposi sarcoma lesions, **306**
Orthotopic liver transplantation, A rapid and highly specific technique to detect hepatitis C RNA in frozen sections of liver, **369**
Osteoarthritis, The genetics of osteoarthritis: *editorial*, **617**
Osteocalcin, Seasonal differences in biochemical parameters of bone remodelling, **284**
Osteogenesis imperfecta
Causes of death in osteogenesis imperfecta, **627**
Pathology of osteogenesis imperfecta: *editorial*, **618**
Ovarian cancer, Value of quantitative pathological variables as prognostic factors in advanced ovarian carcinoma, **142**
Ovary, Carcinosarcoma arising in a dermoid cyst of the ovary, **519**
Oxidative stress, Evidence of oxidative stress in erythrocyte phospholipid composition in the pathogenesis of familial Mediterranean fever (periodical disease), **453**

P53
Cell growth and p53 expression in primary acquired melanosis and conjunctival melanoma, **338**
Expression of p53 and bcl-2 and response to preoperative chemotherapy and radiotherapy for locally advanced squamous cell carcinoma of the oesophagus, **456**
Expression of P-glycoprotein in hepatocellular carcinoma: a potential marker of prognosis, **470**
Immunohistochemical analysis of bcl-2 expression in transitional cell carcinoma of the bladder, **395**
p53 expression in carcinoma of the cervix, **971**
p53 protein expression in malignant, pre-malignant and non-malignant lesions of the lip, **648**
Sensitive and reliable PCR and sequencing used to detect p53 point mutations in fine needle aspirates of the breast, **570**
Use of specific ELISA for the detection of antibodies directed against p53 protein in patients with hepatocellular carcinoma, **295**
Pancreatitis
Histological assessment of chronic pancreatitis at necropsy, **913**
Potential role of *Clostridium perfringens* alpha toxin in the pathogenesis of acute pancreatitis, **500**
Pancreatoblastoma, Pancreatoblastoma: a histochemical and immunohistochemical analysis, **952**
Paneth cell, Expressioan of CD15 in normal and metaplastic Paneth cells of the digestive tract, **474**
Papillary thyroid carcinoma, Proliferating cell nuclear antigen expression in papillary thyroid carcinoma, **657**
Papillon-Lefèvre syndrome, Microbiological and serological investigations of oral lesions in Papillon-Lefèvre syndrome, **255**
Paraffin wax section, Diagnosis of lymphoma in paraffin wax sections by nested PCR and immunohistochemistry, **333**
Paraformaldehyde, Use of buffered formaldehyde in the enzymatic digestion of inflamed mucosa, **177**
Parietal cells, Parietal cells in the duodenal bulb and their relation to *Helicobacter pylori* infection, **309**

Partial rescreening, Rapid review (partial rescreening) of cervical cytology. Four years experience and quality assurance implications, **587**
Pathologists, Audit of continuing medical education for pathologists: strategies and implications: *leader*, **100**
Pathology reports, Phraseology in pathology reports. A comparative study of interpretation among pathologists and surgeons, **79**: *correspondence*, **693**
PCNA
Expression of P-glycoprotein in hepatocellular carcinoma: a potential marker of prognosis, **470**
Immunohistochemical analysis of bcl-2 expression in transitional cell carcinoma of the bladder, **395**
Proliferating cell nuclear antigen expression in papillary thyroid carcinoma, **657**
Pepsinogen, Association between *Helicobacter pylori* infection and serum pepsinogen concentrations in gastroduodenal disease, **1005**
Periodical disease, Evidence of oxidative stress in erythrocyte phospholipid composition in the pathogenesis of familial Mediterranean fever (periodical disease), **453**
Periodontopathogens, Microbiological and serological investigations of oral lesions in Papillon-Lefèvre syndrome, **255**
Peripheral arterial occlusive disease, Increased serum laminin and angiogenin concentrations in patients with peripheral arterial occlusive disease, **508**
Peripheral blood lymphocytes
Differential expression of T cell antigens in normal peripheral blood lymphocytes: a quantitative analysis by flow cytometry, **539**
Expression of IL-2R, IL-4R, IL-6R on peripheral blood lymphocytes in systemic lupus erythematosus and correlation with disease activity, **660**
Peritoneal involvement, Peritoneal involvement by rectal cancer: *correspondence*, **694**
pH, Effect of pH changes in cerebrospinal fluid specimens on bacterial survival and antigen test results, **249**
Phenotypic changes, Phenotypic changes in acute myeloid leukaemia: implications in the detection of minimal residual disease, **15**
Phosphate excretion, Inappropriate phosphate excretion in idiopathic hypercalciuria: the key to a common cause and future treatment?, **881**
Phospholipase C, The potential role of *Clostridium perfringens* alpha toxin in the pathogenesis of acute pancreatitis, **500**
Phraseology, Phraseology in pathology reports. A comparative study of interpretation among pathologists and surgeons, **79**: *correspondence*, **693**
Picornaviruses, Search for picornaviruses at onset of inflammatory myopathy, **592**
Piecemeal necrosis, Fibrosis and other histological features in chronic hepatitis C virus infection: a statistical model, **465**
Pineal gland, Sudden death due to a glial cyst of the pineal gland, **267**
Pituitary tumour, Expression of bcl-2 oncoprotein in pituitary tumours: comparison with c-myc, **795**
Placenta, Increase in the relative level of type V collagen during development and ageing of the placenta, **916**
Placental-like alkaline phosphatase, Germ cell tumour as a diagnostic pitfall of metastatic carcinoma, **223**
Plasma cell dyscrasia, Granulocyte-colony stimulating factor concentrations in a patient with plasma cell dyscrasia and clinical features of chronic neutrophilic leukaemia, **858**
Plasminogen activators, Cerebrospinal fluid activity of tissue plasminogen activator in patients with neurological diseases, **577**
Platelet count, Ethnic and sex differences in the total and differential white cell count and platelet count, **664**
Pleomorphic adenoma, Pleomorphic adenoma of the bronchus, **87**
Ploidy, Oncogenic human papillomaviruses and ploidy in cervical lesions, **892**
Pneumocystis carinii, Simple detection of the 5S ribosomal RNA of *Pneumocystis carinii* using in situ hybridisation, **712**
Pneumonia
Causes of death in osteogenesis imperfecta, **627**
Chaetomium pneumonia in patient with acute myeloid leukaemia, **184**
POEMS syndrome, POEMS syndrome and Waldenström's macroglobulinaemia, **181**
Point mutation
Clinical significance of K-*ras* oncogene activation in ampullary neoplasms, **460**
Sensitive and reliable PCR and sequencing used to detect p53 point mutations in fine needle aspirates of the breast, **570**
Point-of-care testing, Near patient testing: is it here to stay? *leader*, **191**
Polymerase chain reaction
Absence of a B allele in acquired B blood group phenotype confirmed by a DNA based genotyping method, **180**
Assessment of IgH PCR strategies in multiple myeloma, **672**
Comparison of the HbH inclusion test and a PCR test in routine scanning for alpha thalassaemia in Hong Kong, **411**
Detection by PCR of *Toxoplasma gondii* in blood in the diagnosis of cerebral toxoplasmosis in patients with AIDS, **89**
Detection of *Helicobacter pylori* in gastric biopsy and resection specimens, **107**
Detection of herpesvirus-like DNA by nested PCR on archival skin biopsy specimens of various forms of Kaposi sarcoma, **631**
Detection and widespread distribution of *Chlamydia pneumoniae* in the vascular system and its possible implications, **102**
Diagnosis of cutaneous tuberculosis in biopsy specimens by PCR and Southern blotting, **889**
Hepatitis C virus seroconversion by a third generation ELISA screening test in blood donors, **254**
Hodgkin's disease following mycosis fungoides: phenotypic and molecular evidence for different tumour cell clones, **504**
HPV testing in patients with low grade cervical cytological abnormalities: a follow up study, **493**
Human papillomavirus DNA in squamous cell carcinoma of the lung, **810**
Mycoplasma fermentans, but not *M. penetrans*, detected by PCR assays in synovium from patients with rheumatoid arthritis and other rheumatic disorders, **824**
One-day detection of PCR amplified *Chlamydia trachomatis* DNA in clinical samples: ELISA versus Southern blot hybridisation, **581**
Quantification of HIV DNA in the brain by PCR: differences between fresh frozen and formalin fixed tissue, **425**
Rapid and highly specific technique to detect hepatitis C RNA in frozen sections of liver, **369**
Search for picornaviruses at onset of inflammatory myopathy, **592**
Sensitive and universal method for microbial DNA extraction from blood products, **861**
Simple detection of the 5S ribosomal RNA of *Pneumocystis carinii* using in situ hybridisation, **712**
Polyneuropathies, Anti-GM1 antibodies in polyneuropathies of unknown origin, **422**
Pons, Pontine neurocytoma, **764**
Post-transplant lymphoproliferative disorders, EBNA expression in Reed-Sternberg-like cells in post-transplant lymphoproliferative disorders: *correspondence*, **270**
Postmortem examination, Origins of... The postmortem examination in diagnosis: *leader*, **965**
Postmortem findings, Confidentiality, death and the doctor: *leader*, **1**: *correspondence*, **694**
Postmortem reports, Confession of ignorance of causation in coroners' necropsies - a common problem? *leader*, **439**
Postoperative, Simple method for necropsy dissection of the abdominal organs after abdominal surgery, **776**
Potassium concentration, The order of draw of blood specimens into additive containing tubes does not affect potassium and calcium measurements, **1019**
Pregnancy, Lipoproteins in pregnant women before and during delivery: influence on neonatal haemorheology, **120**
Preleukaemic syndrome, Gelatinous degeneration presenting as a preleukaemic syndrome, **512**
Preoperative chemo/radiotherapy, Expression of p53 and bcl-2 and response to preoperative chemotherapy and radiotherapy for locally advanced squamous cell carcinoma of the oesophagus, **456**
Preterm infant, Splenic macrophages in preterm infants: a necropsy study, **391**
Primary biliary cirrhosis
Accuracy of staging in primary biliary cirrhosis, **556**
Biliary expression of heat shock protein: a non-specific feature of chronic cholestatic liver diseases, **53**
Primary sclerosing cholangitis, Biliary expression of heat shock protein: a non-specific feature of chronic cholestatic liver diseases, **53**
Progesterone receptor, Prognostic role of oestrogen and progesterone receptors in patients with breast cancer: relation to age and lymph node status, **920**
Prognosis
p53 expression in carcinoma of the cervix, **971**
Prognostic role of oestrogen and progesterone receptors in patients with breast cancer: relation to age and lymph node status, **920**
Prognostic value of cathepsin D in breast cancer: comparison of immunohistochemical and immunoradiometric detection methods, **57**
Significance of MUC1 and MUC2 mucin expression in colorectal cancer, **560**
Use of flow cytometry in the analysis of stage III squamous cell carcinoma of the oesophagus and its association with MIB-1, **975**
Proliferating cell nuclear antigen
Expression of P-glycoprotein in hepatocellular carcinoma: a potential marker of prognosis, **470**
Immunohistochemical analysis of bcl-2 expression in transitional cell carcinoma of the bladder, **395**
Proliferating cell nuclear antigen expression in papillary thyroid carcinoma, **657**
Proliferation
Proliferation indexes - a comparison between cutaneous basal and squamous cell carcinomas, **549**
Proliferation in the normal cervix and in preinvasive cervical lesions: *editorial*, **957**
Proliferation index, Ki-67 expression in early prostate cancer and associated pathological lesions, **741**
Proliferation markers, Which proliferation markers for routine immunohistology? *correspondence*, **270**

Proliferative activity, MIB-1 proliferative activity in invasive breast cancer measured by image analysis, **926**
Prostate, βhCG as a prognostic marker in adenocarcinoma of the prostate, **329:** *correspondence*, **693**
Prostatic carcinoma, Ki-67 expression in early prostate cancer and associated pathological lesions, **741**
Prostatic specimens, Macroscopic examination of prostatic specimens: *correspondence*, **187, 614**
Prosthetic valve, Electron microscopy and serological fetures of a patient with Q fever prosthetic valve endocarditis, **679**
Prothrombin time, Multicentre evaluation of the Thrombotest International Sensitivity Index used with a steel ball coagulometer, **414**
Pseudomembranous colitis, *Clostridium difficile* infection of the gut: *leader*, **529**
Pseudopyropoikilocytosis, Pseudopyropoikilocytosis: a striking artefact, **772**
Pyropoikilocytosis, Pseudopyropoikilocytosis: a striking artefact, **772**

Q fever, Electron microscopy and serological fetures of a patient with Q fever prosthetic valve endocarditis, **679**
Quality assurance schemes, Kappa statistics as indicators of quality assurance in histopathology and cytopathology, **597**

Rapid microagglutination test, Serological cross reaction between legionella and campylobacter in the rapid microagglutination test, **584**
Rapid response testing, Evidence based practice: clinician's use and attitudes to near patient testing in hospitals, **903**
Rapid review, Rapid review (partial rescreening) of cervical cytology. Four years experience and quality assurance implications, **587**
Receiver operator characteristics, Evaluation of formulae for CSF IgG synthesis using data obtained from two methods: importance of receiver operator characteristic curve analysis, **24**
Recombinant immunoblot assay, Hepatitis C virus seroconversion by a third generation ELISA screening test in blood donors, **254**
Rectal biopsy, Diagnostic difficulty arising from rectal recovery in ulcerative colitis, **319**
Rectal cancer, Peritoneal involvement by rectal cancer: *correspondence*, **694**
Red cell storage, Failure to kill *Yersinia enterocolitica* by plasma diluted to the concentration found in red cell units, **434**: *correspondence*, **955**
Reed-Sternberg-like cells, EBNA expression in Reed-Sternberg-like cells in post-transplant lymphoproliferative disorders: *correspondence*, **270**
Registries, Benefits and limitations of pathology databases to cancer registries, **947**
Relapse, Value of colony forming unit-granulocyte macrophage assay in predicting relapse in acute myeloid leukaemia, **450**
Renal calculi, Inappropriate phosphate excretion in idiopathic hypercalciuria: the key to a common cause and future treatment?, **881**
Renal cell carcinoma, Myxoid renal cell carcinoma: histological immunocytochemical and ultrastructural study, **1015**
Renal magnesium secretion, Hypomagnesaemic tetany, **343**
Renal tubules and interstitium, Interactions between renal tubules and interstitium: *leader*, **783**
Renal vasculitis, Glomerular vascular cell adhesion molecule-1 expression in renal vasculitis, **238**
Resistant enterococci, Resistant enterococci - mechanisms, laboratory detection and control in hospitals: *leader*, **700**
Reverse transcriptase/polymerase chain reaction, OCT embedded sections of pathological specimens as a source of high quality RNA for reverse transcriptase/polymerase chain reaction, **258**
Rhabdomyosarcoma, Focal rhabdomyosarcomatous differentiation in primary liposarcoma, **770**
Rheumatoid arthritis
Mycoplasma fermentans, but not *M. penetrans*, detected by PCR assays in synovium from patients with rheumatoid arthritis and other rheumatic disorders, **824**
Mycoplasmas in rheumatoid arthritis and other human arthritides: *editorial*, **781**
Ulcerating rheumatoid nodule of the vulva, **85**
Right brachiocephalic vein, Intimal sarcoma of the right brachiocephalic vein presenting as the superior vena caval syndrome, **347**
RNA
OCT embedded sections of pathological specimens as a source of high quality RNA for reverse transcriptase/polymerase chain reaction, **258**
Rapid and highly specific technique to detect hepatitis C RNA in frozen sections of liver, **369**

S-phase fraction, Iododeoxyuridine labelling of S-phase fraction in fine needle aspirates from breast carcinomas, **607**
Salivary gland
B cell lymphoma of the thymus and salivary gland, **595**
Immunohistological analysis of tumour growth factor β1 expression in normal and inflamed salivary glands, **728**
Sarcoidosis, Association between sarcoidosis and lymphoma revisited, **208**
Sarcomas, Divergent differentiation in soft tissue sarcomas: *editorial*, **697**
Scedosporium apiospermum, Amphotericin B responsive *Scedosporium apiospermum* infection in a patient with acute myeloid leukaemia, **93**
Schistosomiasis, Hyperfibrinolysis in hepatosplenic schistosomiasis, **990**
Sclerosing lymphocytic lobulitis, Sclerosing lymphocytic lobulitis in the male breast, **609**
(--SEA/) deletion, Comparison of the HbH inclusion test and a PCR test in routine scanning for alpha thalassaemia in Hong Kong, **411**
Seasonal differences, Seasonal differences in biochemical parameters of bone remodelling, **284**
Sensitivity Index, Multicentre evaluation of the Thrombotest International Sensitivity Index used with a steel ball coagulometer, **414**
Serological cross reaction, Serological cross reaction between legionella and campylobacter in the rapid microagglutination test, **584**
Serology
Accuracy of serology for the diagnosis of *Helicobacter pylori* infection - a comparison of eight kits, **373**
Helicobacter pylori antibody titres in serum, plasma and successively thawed specimens: implications for epidemiological and clinical studies, **1017**
Sickle cell β^+ thalassaemia, Fatal bone marrow embolism in a patient with sickle cell β^+ thalassaemia, **774**
Sjögren's syndrome, Immunohistological analysis of tumour growth factor β1 expression in normal and inflamed salivary glands, **728**
Skin cancer (carcinoma)
Proliferation indexes - a comparison between cutaneous basal and squamous cell carcinomas, **549**
Tumour related cutaneous elastophagocytosis, **81**
Sleeping position, Sleeping position and upper airways bacterial flora: relevance to cot death, **170**
Small bowel, Duodeno-jejunal adenocarcinoma as a first presentation of coeliac disease, **602**
Small round structured viruses, Viral gastroenteritis: small round structured viruses, caliciviruses and astroviruses. Part I. The clinical and diagnostic perspective: *leader*, **874**: Part II. The epidemiological perspective: *leader*, **959**
Smooth muscle differentiation, Malignant melanoma showing smooth muscle differentiation, **950**
Soft tissue sarcomas, Divergent differentiation in soft tissue sarcomas: *editorial*, **697**
Solar elastosis, Tumour related cutaneous elastophagocytosis, **81**
Solid tissue, Solid tissue culture for cytogenetic analysis: a collaborative survey for the Association of Clinical Cytogeneticists, **638**
Southern blotting
Diagnosis of cutaneous tuberculosis in biopsy specimens by PCR and Southern blotting, **889**
One-day detection of PCR amplified *Chlamydia trachomatis* DNA in clinical samples: ELISA versus Southern blot hybridisation, **581**
Spherulocystosis, Ocular spherulocystosis, **857**
Sphingomyelinase, Determination of optimal liquid medium for enzyme expression by *Helicobacter pylori*, **818**
Spleen, Langerhans cell histiocytosis forming an asymptomatic solitary nodule in the spleen, **262**
Splenic macrophages, Splenic macrophages in preterm infants: a necropsy study, **391**
Sputum samples storage, Does storage of sputum specimens adversely affect culture results?, **684**
Squamous cell carcinoma
Collision tumour of the oesophagus: a challenge for histological diagnosis, **524**
Correlation of apoptosis with tumour cell differentiation, progression, and HPV infection in cervical carcinoma, **134**
Expression of p53 and bcl-2 and response to preoperative chemotherapy and radiotherapy for locally advanced squamous cell carcinoma of the oesophagus, **456**
Human papillomavirus DNA in squamous cell carcinoma of the lung, **810**
Measurement of extent of spread of oesophageal squamous carcinoma by serial sectioning, **124**
Proliferation indexes - a comparison between cutaneous basal and squamous cell carcinomas, **549**
Use of flow cytometry in the analysis of stage III squamous cell carcinoma of the oesophagus and its association with MIB-1, **975**
Staging, Accuracy of staging in primary biliary cirrhosis, **556**
Staining, Origins of ... Mucin staining: *leader*, **787**
Staphylococcus aureus, The new threats of Gram positive pathogens: re-emergence of things past: *leader*, **444**
Steel ball coagulometer, Multicentre evaluation of the Thrombotest International Sensitivity Index used with a steel ball coagulometer, **414**
Storage, Does storage of sputum specimens adversely affect culture results?, **684**
Streptococcus pneumoniae, The new threats of Gram positive pathogens: re-emergence of things past: *leader*, **444**
Streptococcus pyogenes, The new threats of Gram positive pathogens: re-emergence of things past: *leader*, **444**

Stress proteins, Biliary expression of heat shock protein: a non-specific feature of chronic cholestatic liver diseases, **53**
Strongyloidiasis, Immunocytochemistry of mucosal changes in patients infected with the intestinal nematode *Strongyloides stercoralis*, **717**
Sudden death
Coroner's necropsy in sudden death: an under-used source of epidemiological information, **737**
Necropsy study of the association between sudden cardiac death, cardiac isoenzymes and contraction band necrosis, **403**: *correspondence*, **1022**
Sudden death due to a glial cyst of the pineal gland, **267**
Sudden infant death syndrome
Blood ferritin concentrations in newborn infants and the sudden infant death syndrome, **168**
Significance of endotoxin in lethal synergy between bacteria associated with sudden infant death syndrome: follow up study, **365**
Sleeping position and upper airways bacterial flora: relevance to cot death, **170**
Superior vena caval syndrome, Intimal sarcoma of the right brachiocephalic vein presenting as the superior vena caval syndrome, **347**
Synaptophysin, Pontine neurocytoma, **764**
Systemic lupus erythematosus
Expression of IL-2R, IL-4R, IL-6R on peripheral blood lymphocytes in systemic lupus erythematosus and correlation with disease activity, **660**
Giant cell hepatitis associated with systemic lupus erythematosus, **183**

T cell antigens, Differential expression of T cell antigens in normal peripheral blood lymphocytes: a quantitative analysis by flow cytometry, **539**
T cell leukaemias, Expression of TIA-1 and TIA-2 in T cell malignancies and T cell lymphocytosis, **154**
T cell lymphocytosis, Expression of TIA-1 and TIA-2 in T cell malignancies and T cell lymphocytosis, **154**
T cell lymphoma
Expression of Epstein-Barr virus encoded latent genes in nasal T cell lymphomas, **72**
HLA antigen expression in enteropathy associated T cell lymphoma, **545**
Malignant lymphoma in congenital dyserythropoietic anaemia type III, **599**
T cells, Expression of the α5β1 fibronectin receptor on T lymphocytes of patients with HIV-1 infection, **733**
Tangier disease, The pathology of cornea in Tangier disease (familial high density lipoprotein deficiency), **407**
Tax expression,HTLV Tax gene expression in patients with lymphoproliferative disorders, **938**
TCRγδ, An unusual association of Felty syndrome and TCRγδ lymphocytosis, **351**
Tenascin, Tenascin in human papillomavirus associated lesions of the uterine cervix, **521**
Testicular cancer, Monocyte activation in patients with non-seminomatous germ cell tumour of the testis before and after tumour eradication, **381**
Thalassaemia, Comparison of the HbH inclusion test and a PCR test in routine scanning for alpha thalassaemia in Hong Kong, **411**
β-Thalassaemia trait, Frequency of coincident iron deficiency and β-thalassaemia trait: *correspondence*, **1021**
Thrombotest International Sensitivity Index, Multicentre evaluation of the Thrombotest International Sensitivity Index used with a steel ball coagulometer, **414**
Thymidine phosphorylase, Thymidine phosphorylase expression in Kaposi sarcoma, **400**
Thymus, B cell lymphoma of the thymus and salivary gland, **595**
Thyroid cancer, Association between thyroid cancer of cribriform variant and familial adenomatous polyposis, **611**
TIA-1 and TIA-2, Expression of TIA-1 and TIA-2 in T cell malignancies and T cell lymphocytosis, **154**
Tissue plasminogen activators, Cerebrospinal fluid activity of tissue plasminogen activator in patients with neurological diseases, **577**
Topoisomerases, Method for quantifying expression of functionally active topoisomerase II in patients with leukaemia, **848**
Toxoplasma gondii, Detection by PCR of *Toxoplasma gondii* in blood in the diagnosis of cerebral toxoplasmosis in patients with AIDS, **89**
Training, Use of oral pathology services by general histopathologists and their attitudes to training of oral pathologists, **565**
Transforming growth factor β1, Immunohistological analysis of tumour growth factor beta1 expression in normal and inflamed salivary glands, **728**
Transforming growth factor β1 mRNA, Histological features predictive of liver fibrosis in chronic hepatitis C infection, **998**
Trauma, Causes of death in osteogenesis imperfecta, **627**
Troponin-T, A case against the specificity of "cardiac" troponin-T, **766**
Tuberculosis
Diagnosis of cutaneous tuberculosis in biopsy specimens by PCR and Southern blotting, **889**
Single-tube nested PCR in the diagnosis of tuberculosis, **290**
Tumorigenesis, Chromosome 11q in sporadic colorectal carcinoma: patterns of allele loss and their significance for tumorigenesis, **386**
Tumour marker, Serum and tissue measurements of CA72-4 in patients with endometrial carcinoma, **967**
Tumour necrosis factor alpha, Monocyte activation in patients with non-seminomatous germ cell tumour of the testis before and after tumour eradication, **381**

Ulcerating rheumatoid nodule, Ulcerating rheumatoid nodule of the vulva, **85**
Ulcerative colitis
Diagnostic difficulty arising from rectal recovery in ulcerative colitis, **319**
Inverse correlation between *Helicobacter pylori* infection and inflammatory bowel disease, **65**
Unusual mucosal changes, Immunocytochemistry of mucosal changes in patients infected with the intestinal nematode *Strongyloides stercoralis*, **717**
Upper airways, Sleeping position and upper airways bacterial flora: relevance to cot death, **170**
Uracil-N-glycosylase, Single-tube nested PCR in the diagnosis of tuberculosis, **290**
Urinalysis, Urinalysis in clinical diagnosis: *leader*, **623**
Uterine sarcoma, Mixed low grade and high grade endometrial stromal sarcoma of uterus: differences on immunohistochemistry and chromosome in situ hybridisation, **604**
Uterus, Alpha-fetoprotein production by a malignant mixed müllerian tumour of the uterus, **349**

Vaccines, Immunisation policies - successes, failures and the future: *leader*, **620**
Vacutainer system, The order of draw of blood specimens into additive containing tubes does not affect potassium and calcium measurements, **1019**
Vancomycin resistance
Heat tolerance of vancomycin resistant *Enterococcus faecium*, **687**
Neomycin blood agar as a selective medium for vancomycin resistant *Enterococcus faecium*: *correspondence*, **437**
Varicella zoster virus, Distribution of varicella zoster virus and herpes simplex virus in disseminated fatal infections, **243**
Vascular cell adhesion molecule-1, Glomerular vascular cell adhesion molecule-1 expression in renal vasculitis, **238**
Vascular tissue, Detection and widespread distribution of *Chlamydia pneumoniae* in the vascular system and its possible implications, **102**
Vasculitis, Ulcerating rheumatoid nodule of the vulva, **85**
VCAM-1, Glomerular vascular cell adhesion molecule-1 expression in renal vasculitis, **238**
Viral gastroenteritis, Viral gastroenteritis: small round structured viruses, caliciviruses and astroviruses. Part I. The clinical and diagnostic perspective: *leader*, **874**: Part II. The epidemiological perspective: *leader*, **959**
Viral pneumonitis, Prevalence of human herpesvirus 6 in lung tissue from children with pneumonitis, **802**
VS38, VS38 immunostaining in melanocytic lesions, **205**: *correspondence*, **694**
Vulva, Ulcerating rheumatoid nodule of the vulva, **85**

Waldenström's macroglobulinaemia, POEMS syndrome and Waldenström's macroglobulinaemia, **181**
White cell count, Ethnic and sex differences in the total and differential white cell count and platelet count, **664**
Workload, The hidden increase in histopathologists' workload, **689**

Xanthomatosis, Severe xanthomatosis associated with familial apolipoprotein E deficiency, **985**
Yersinia enterocolitica, Failure to kill *Yersinia enterocolitica* by plasma diluted to the concentration found in red cell units, **434**: *correspondence*, **955**

Ziehl-Neelsen stain, Modified detergent Ziehl-Neelsen technique for the staining of *Cyclospora cayetanensis*, **511**
